

DESIGN. DEVELOP. DELIVER.

GCMarine is your complete waterfront and marine solutions partner.

We design, construct and install marine projects across Australia and abroad.

With over 50+ years of marine construction experience collectively, our team has delivered hundreds of strong, long lasting waterfront solutions for government, commercial and residential customers.

GCMarine manufacture in Australia to international standards from our Marine Precinct Factory on the Gold Coast.

Our own transport fleet allows us to load, transport, deliver and install solutions for clients around the world.

GCMarine excels at delivering:

- ✓ Pontoons Piled, Strut or Cabled
- ✓ Jetties floating or fixed
- ✓ Boardwalks decks & rails
- ✓ Floating Suites
- ✓ Marinas new or replacement
- ✓ Marina onsite management
- ✓ Quality fixtures & finishes
- ✓ Custom designs & accessories
- ✓ Demolition, removal & repair
- ✓ Temporary Boatwork Platforms
- √ Equipment Hire

GCMarine is a passionate team of precision engineers, fabricators and project managers that work together seamlessly. Our skills boil down to:

- Aluminium Fabrication and CNC machining
- Marina Design and Engineering
- Marina Feasibility

This industry know-how, passion and efficiency is what sets GCMarine apart, and why GCMarine is chosen to design, construct and install a growing list of stellar projects internationally.

Our pipeline often has 40 projects under construction at any one time across the government, commercial and residential sector.

Our commitment to quality means we only use the best suppliers to ensure your next marine project endures the harshest of marine environments.
